

# Plug in. Point up. Power on.

Small solar panels can make electricity for your home through a wall outlet. Would a kit work at your place? Your answers show governments and suppliers what people here need.

**A little power of your own, wherever you  
call home.**

## Tell us about your home.

A few questions about your balcony, your yard and your outlet. It takes a couple of minutes and we don't ask for your name.
